

ezywatch.co.uk 020 8242 4495

The world of technology is forever advancing, and while near field communication has been around for longer than you may think, it continues to adapt and grow. **ezywatch** has been specifically designed with you in mind, not only is it one of the best on the market, it has been created in a way to ensure it will supplement your business requirements.

Ezywatch has a range of attractive benefits that are essential for the success of your company.

Ezywatch is a proof of attendance solution, and lone worker protection created primarily for the security and social care sector. Ezywatch utilises a variety of technologies such as NFC (near-field communication) phones and RFID (radio frequency identification) tags. By using Ezywatch, you will be able to immediately ascertain where your employees went, at what time, and what they did whilst there. This information is at your fingertips as it's directly fed to our online servers and you can access that information from our online system any time 24/7.

This state of the art and easy to use application features effortless usability with step by step options, ensuring that you are aware of your guards' whereabouts at all times.

One of the major attractions of Ezywatch is that you no longer have to install on-site data-collection equipment which reduces paperwork...and headaches!

Features

Live monitoring

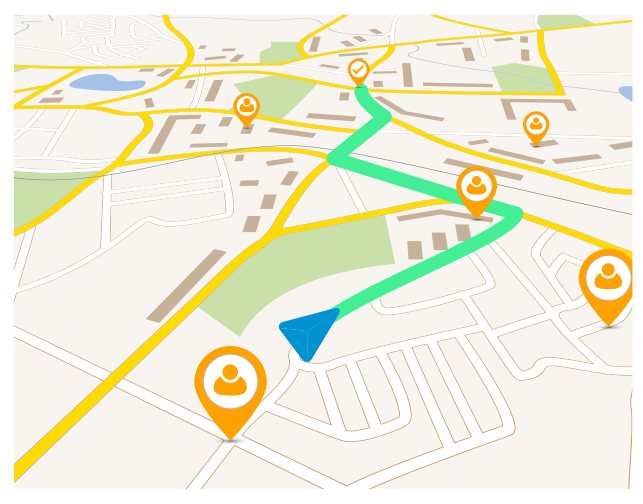

Through Ezywatch live monitor you can watch your workers activity online, 24/7, without any delay. It allows you to add different types of sensors to the monitor, which will help you to keep close eye on our workers activity.

Live Monitor	Clients	Group Users	Mobile Users	Locations	Areas	Phones	Reports

Features cont.

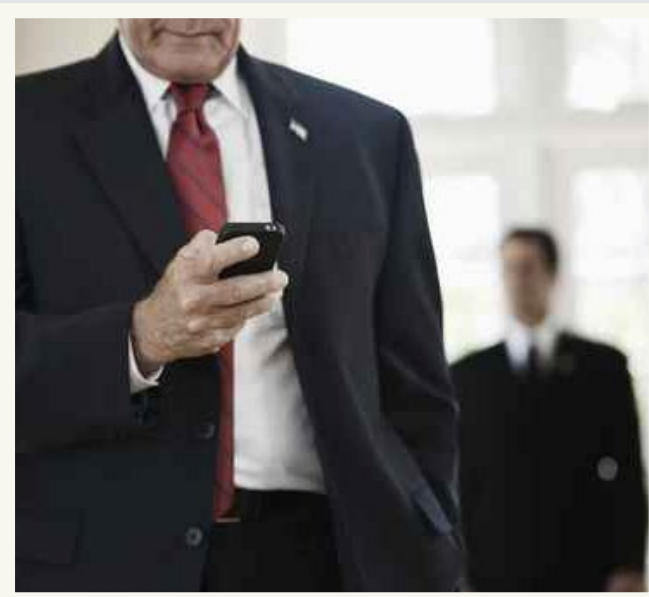

GPS Tracking

Ezywatch is packed with GPS tracking; you can see where each worker is on the map.

Incident Reporting

Using the Ezywatch mobile application, your workers have the ability to report any incidents that may happen at their duty position. They have the option to either send a text or picture.

Alerts

It's very important to be able to track the location of your workers. Not only does Ezywatch offer this service, it even enables you to receive alerts via SMS or email. For example, if a worker hasn't attended a certain checkpoint within a certain time, their supervisor or manager will receive an alert. This is an incredibly beneficial service as it's essential that you provide a professional service to your customers, all the while protecting your staff.

Reporting

Ezywatch is packed with advance reporting systems through which you can pull all information in excel for deep analysis. It's also possible to add custom reports on demand if required.

Features cont.

Cost effective

Although we have lots of features and industry leading software, we are trying our best to keep our cost low. This really is one of the best systems on the market at a very reasonable price.

99.9% Guaranteed Uptime

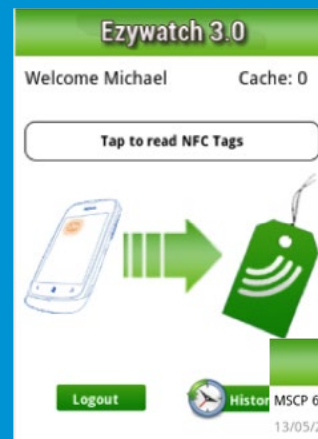

We provide 99.9% guaranteed uptime for both mobile and internet based applications.

Other Features

Ezywatch has lots of other features and we are consistently working to improve our system to help you. We also ask our customers to give us their suggestion for new functionalities for the system.

Have a look at our easy to use mobile application:

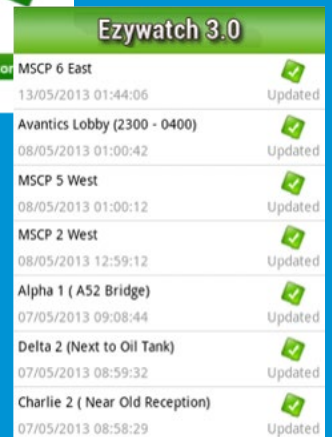

Tagging Screen

Our application is available on

Tagging History

A screenshot of the Ezywatch 3.0 mobile application showing the 'History' screen. It displays a list of tagging events with columns for location, date/time, and status. Each entry has a green checkmark icon in the top right corner.
